Prestige Shanthi Nikethan Apartment,  
Whitefield Road,  
Bangalore.

Dear Neetu,

This is to confirm the telephonic conversation our Dr. Shashikala had with you on the subject of quality education in a very friendly environment during the formative years of children.

Diya Academy of learning is an initiative of August Foundation established for the charitable objectives and particularly focusing in the areas of education. Diya has spent seven plus years in its neighborhood and has very strong reputable standing with its efforts and commitments of bringing the young children up to learn the values of life. Diya will have up to VIII standard starting from Montessori I, II, III and primary during the coming academic year 2012-13( June 2012) under CBSE affiliation. The following year Diya will complete its roster and offer education up to STD X (10<sup>th</sup>).

While we have a very strong demand for positions at our school, we are equally encouraged by initiatives taken by people like yourselves in the development of young students and welcome an opportunity to associate Diya with your institution that can benefit graduating children from your system to continue on to a fine academy such as ours. We assure you that acceptance after due process of selection at Diya will add finest values and education to all children you would want to refer to us.

We look forward to working with you and thank you again for your initiatives in recommending Diya to your customers.

for Diya Academy of Learning.

Mary Sebastian.  
Admin Coordinator.
